

An E.J. Ward, Inc. Company

Manage your fleet from one platform

Connected Operations Cloud

Advanced, Real-Time Telematics and GPS

Capture rich data from sensors, cameras, and OEM integrations, and centralize all of your operations data on one unified platform.

- Gain visibility across facilities, fleets, and end-customer services
- Maximize uptime and minimize maintenance costs
- Automate key workflows across your operations
- Turn real-time data into actionable insights and reports
- Simplify regulatory compliance and avoid violations

i The Connected Operations Cloud is part of a complete hardware and software solution to enhance efficiency, safety, customer service, and compliance.

KEY FEATURES

- **Location Tracking:** High-precision, improved GPS with real-time visibility.
- **Integrated Platform:** Full Extensible platform works with Samsara wireless sensors, camera modules, Samsara USB accessories, and Wi-Fi devices.
- **High-speed Wi-Fi:** Includes high-speed 4G LTE Wi-Fi hotspot.
- **Full Vehicle Compatibility:** Compatible with light, medium, and heavy-duty vehicles.
