Standard premium features

Six-Layer Security Program ensures cards are only used by authorized users, for authorized purchases by verifying the user, vehicle location, card status and fuel levels by declining at POS

Granular spending limits and transaction controls such as white-listing/blocking specific high-risk merchants, setting individual fueling hours for users, and specific limits for specific merchant types for both fuel and non-fuel purchases

Dedicated US-based priority support with a dedicated RoadFlex Account Manager and direct access to our 24/7/365 support line

AI-powered Level 3 analytics and reporting to fully automate and control fuel and non fuel risk management

Seamless integration with accounting, fleet management, and fleet maintenance and telematics software platforms

Optional

Automated telematics compares fuel usage and odometer readings, and vehicle proximity to the pump for the highest level of security controls

Elevate Your Process

SimplyFuel Solutions is unparalleled in our approach to innovation and forward-thinking. We are a single-source provider of integrated Fleet Management Solutions and Services that reduce costs, automate operations, eliminate redundancies, enhance security, and increase fleet optimization.

POWERED BY

ROADFLEX

Fuel Risk Management for Modern Fleets

RoadFlex is the leader in fuel risk management. Thousands of commercial fleets nationwide currently leverage our next-generation analytics insights, operations automation, and fleet reporting.

This includes businesses that manage fleets, such as HVAC companies, utilities, construction, landscaping companies and government agencies.

INTRODUCING

SimplyFuel™

VISA Fuel Card for Fleets

Manage all fleet spending
on a single platform

SF - SimplyFuel Visa Card 03/25

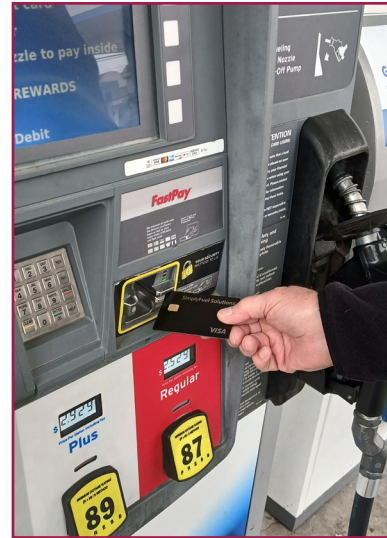

Secure access to on premise fleet fuel, retail fuel stations, and EV chargers and more

Fleet fuel site dispenser access

Fleet access and public EV charger purchase

Retail gas station purchases

Control every dollar spent

Set rules for spending limits, locations, and merchants for each card or driver, issue cards instantly and authorize or decline payments in real-time.

Integrated platform

The SimplyFuel Visa card allows access fleet fuel sites, retail fueling and consolidates all transactions in real-time.

Accepted nationwide

Never worry about out-of-network fuel stations or fees. Set SimplyFuel card rules for anywhere Visa is accepted.

Retail discounts

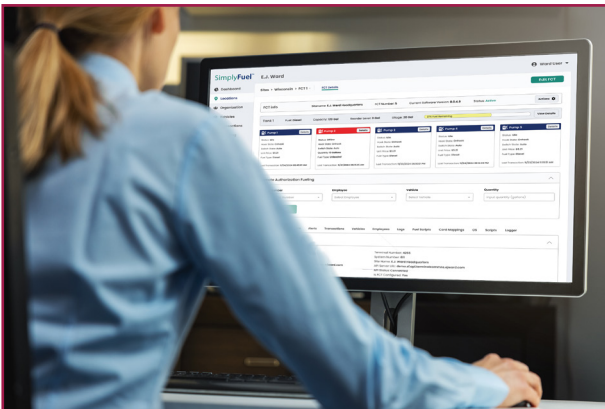

Discounts are available at over 220,000 participating fuel and non-fuel retail sites across the US. No set up or transaction fees.

Pay for other fleet and business expenses

Unlock your SimplyFuel Visa card to buy more than just fuel while on the road. Enable fuel-only purchases or allow your drivers to use their card on other business expenses. Customize access for purchases to include auto parts stores, maintenance, repairs, tires, hardware stores, food and hotels and deactivate any time.

Virtual card

Provide temporary Virtual cards for out of town first responders or to replace lost or stolen employee cards.

Seamless telematics integration eliminates card misuse

Leverage SimplyFuel with optional telematics for a 360° view of fuel efficiency for each of your drivers and vehicles using advanced reporting analytics.

Integrating a third party telematics device transmits odometer and fuel gauge capture at POS and so you'll know exactly where and when your drivers are making purchases and compare fuel purchased to fuel used. Validate legitimate purchases and flag anomalies to automatically deny a card transaction in real-time.

Telematic devices provides SimplyFuel the capability to verify vehicle with transaction location at the time of each purchase.
